RECORDING YOUR AUDITION:

1. If you click on "My Part," you can hear the accompaniment and the solo by clicking on "Start Take."
2. If you only want to hear the solo line, click on "Accompaniment" to deselect the piano accompaniment.
3. If you want to tune your instrument, click on "Tuner."
4. If you want to set up a practice loop for a difficult section of the solo, enter the range of measures under Location setting. Click on "Start Take" to practice that section of music.
5. If you want to slow down or speed up the music, move the tempo arrow in the middle of the controller. **(Hint: If you can't play the solo at the indicated tempo, slow it down to a comfortable performance speed. You will score better if you are not frantic with your audition recording.)**
6. You can also set a click track on every eighth note by selecting "Click." You can also set different countoffs by selecting "Click Options" under the "Controls Menu." Experiment with the setting until you find what you like.
7. You can adjust the microphone level and overall volume to SmartMusic with the controllers at the far right.
8. You can shut off the intelligent accompaniment by deselecting the "Follow Me" button in the upper right.
9. Once you are satisfied with your settings, it is time to record your audition with the accompaniment.
10. **Be sure that "My Part" is deselected so your recording does not have the computer playing the solo with you.**
11. Click on "Start Take" (green button) and start to record your audition.
12. Every time you play, SmartMusic records your audition. You can view all of your takes under "My Takes" and save the best recordings for a later time.
13. Once you are happy with one of your takes (recording), click on the MP3 button to save an MP3 version of your audition to your computer.

UPLOADING YOUR AUDITIONS (MP3 Files):

1. At the www.bandworld.org/wibc website, click on "Register now" under the Honor Band Registration and Info area.
